Re: Big Cottonwood Commissioner

Dear Mr. Sim:

Please accept this correspondence in follow up of the meeting of May 28, 1998 concerning the appointment of a Big Cottonwood Creek Commissioner. The comments of William Lapsley accurately reflect the sentiments of many of the individuals of the Canyon who have spoken to me over the years. Specifically, Salt Lake City has had a conflict of interest with the Commissioner in the past, and that Salt Lake City should NOT have control of the Commissioner in the future, directly or through its shareholder status in the various irrigation companies.

To work out a consensus situation for Big Cottonwood Creek water will require some effort. I would be willing to assist with the work as a representative of small irrigation companies and/or individual or small group water users. I own Farr & Harper Ditch water rights as a successor in interest to the Big Cottonwood Creek Morse Decree.

I would be happy to discuss any of these issues with you at your convenience. Please feel free to contact me per the information listed above or at 538-9424.

Sincerely;

Wayne Crawford
